foliar nutritionals

# Stress Reliefe

## (0-0-25)

### GUARANTEED ANALYSIS

#### 0-0-25

Soluble Potash (K<sub>2</sub>O) .....25.00%

*Derived from: Potassium Acetate*

- *Specifically formulated for rapid foliar uptake and utilization of Potassium*
- *Increases plant strength and tolerance associated with environmental stressors*
- *Reduces mottling and marginal chlorosis of leaf tissue*

### RECOMMENDED RATES

#### Cool Season Turf (Greens & Tees)

Apply 4-6 oz. per 1,000 sq. ft. (0.10 - 0.16 lb K per 1,000 sq. ft.) as necessary. Dilute with a minimum of 2 gallons of water per 1,000 sq. ft. and apply every 7-14 days or as needed.

#### Warm Season Turf (Greens & Tees)

Apply 4-8 oz. per 1,000 sq. ft. (0.10 - 0.20 lb of K per 1,000 sq. ft.) as necessary. Dilute with a minimum of 2 gallons of water per 1,000 sq. ft. and apply every 7-14 days or as needed.

#### Nursery & Ornamentals (Foliar/Drench/Transplant)

Apply 4-6 quarts per 100 gallons.

2.5 gallons (9.46 liters)  
Weight per gallon: 13.38 lbs.  
Net weight: 33.45 lbs. (15.20 Kg)

# Stress Relefe

## (0-0-25)

### PRODUCT INFORMATION

**Harrell's MAX Stress Relefe** is a high solubility, low salt index, liquid potassium fertilizer which can be applied directly to the soil, to the plant tissues (with water) or through an irrigation system. Stress Relefe provides rapid foliar uptake and utilization of potassium during the plant's critical growth stages such as germination and elongation. Stress Relefe can be applied throughout the growing season to correct potassium deficiencies quickly. Fall fertilization will provide potash which is a key element in improving stress tolerance from adverse environmental conditions. Turf normally responds within a few days of application. Stress Relefe contains no chloride which can damage turf, soil and corrode equipment.

### DIRECTIONS FOR USE

Stress Relefe may be tank mixed with most liquid fertilizer and pesticides, however, a jar compatibility test should be performed on unknown combinations. Stress Relefe can be used on warm season and cool season grasses. It can be used throughout the growing season as a foliar source of potassium (K) to supplement other fertilizations.

### PRECAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation.

### FIRST AID

**Skin:** Remove contaminated clothing. Wash with plenty of clean water and soap. Consult a physician.

**Eyes:** Rinse with clean water for a minimum of 15 minutes. Seek medical attention.

**Internal:** Drink 2 glasses of water. DO NOT INDUCE VOMITING. Seek medical attention at once.

### CONTAINER DISPOSAL

Triple rinse container and offer for recycling or dispose in accordance with federal state and local authorities

### CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal laws and that they conform to the label description. Any nonconformance must be reported in writing to Seller within Thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery. The seller's liability under this warranty is in lieu of all other warranties, expressed or implied, including warranties of merchantability and fitness for a particular purpose. There are no warranties which extend beyond this statement.
