Paspalum Mix

PRODUCT INFORMATION

Harrell's MAX Manganese is a liquid foliar formula designed to correct and prevent Manganese deficiencies on turf and ornamentals. A jar test to check the compatibilities of new or unfamiliar combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant will aid surface coverage which will help leaf absorption.

DIRECTIONS FOR USE

Shake well before each use. Harrell's MAX Paspalum Mix may be tank mixed with most liquid fertilizers and pesticides. However, a jar compatibility test should be performed on unknown combinations prior to mixing and application. Harrell's MAX Paspalum Mix should not be applied as a concentrate. Spray solutions should not be more concentrated than 1:200 or 1/2 gallon in 100 gallons of water.

PRECAUTIONS

Shake well before each use. Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. Do not contaminate feed, seed, or water supplies.

Keep away from Children.

FIRST AID

Skin: Remove contaminated clothing. Wash with plenty of clean water and soap. Consult a physician.

Eyes: Rinse with clean water for a minimum of 15 minutes. Seek medical attention.

Internal: Drink 2 glasses of water. DO NOT INDUCE VOMITING. Seek medical attention at once.

STORAGE AND CONTAINER DISPOSAL

Store above 32°F. Store this product in a dry place, in original container only. Keep lid tightly closed. Keep away from open flame or intense heat. Triple rinse container and offer for recycling or dispose of in accordance with federal, state and local authorities.
