Potassium plus Calcium

Harrell's MAX® Potassium Plus Calcium is a specially formulated blend of nutrients designed for application on a wide variety of turf grasses, trees and ornamental plants. Repeat applications may improve plant tolerance to drought and environmental stress.

DIRECTIONS FOR USE

Shake well before each use. Harrell's MAX® Potassium Plus Calcium may be tank mixed with most liquid fertilizer and pesticides, however, a jar compatibility test should be performed on unknown combinations. Apply in sufficient water to ensure thorough coverage. Irrigate within 18 hours after application.

Apply fertilizer in accordance with best management practices established by your State University or Cooperative Extension Service. Observe any State or Local fertilizer regulations pertaining to fertilizer content, application rates, or timing of application specific to your locale.

RECOMMENDED RATES

Greens & Tees: Apply 2 – 6 oz. per 1,000 sq. ft. in enough water to ensure thorough coverage. Repeat every 3 – 4 weeks. For initial application, apply 4 oz. per 1,000 sq. ft. If preferred, continued 4 oz. applications will improve plant vigor and not harm plants.

Fairways & Sports Turf: Apply 3 – 4 qts. per acre. Repeat as needed.

Establishing Greens & Other Turf: Apply 4 oz. per 1,000 sq. ft. in enough water to ensure thorough coverage when sprigging or seeding. Continue 4 oz. applications every 2 weeks until grass has grown in.

Bentgrass: Use 16 oz. per 1,000 sq. ft. in sufficient water to cover, which will provide 1/10 lb. of N per 1,000 sq. ft.

Trees & Ornamentals: Apply at 32-64 oz per 100 gallons of water as a drench or foliar spray. Repeat as needed.

STORAGE AND CONTAINER DISPOSAL

Store above 32°F. Store this product in a dry place, in original container only. Keep lid tightly closed. Keep away from open flame or intense heat. Triple rinse container and offer for recycling or dispose of in accordance with federal, state and local authorities.
