KEEP OUT OF REACH OF CHILDREN

CAUTION

Read entire label for additional
precautionary statements and use directions.

FOR PROFESSIONAL USE ONLY

FIRST AID

If on Skin: Wash with soap and water. Consult a physician if any
irritation persists

If in Eyes: Rinse with clean water for 15 minutes. Remove contact
lenses after the first 5 minutes and continue to rinse. Seek
medical attention if irritation persists.

If Ingested: Call 911 or a physician for treatment advice.

Have the product label with you when calling a doctor or going
for treatment.

Calcium

8.25%

Harrell's MAX Calcium is a complexed secondary plant nutrient that will aid in supplementing the crop's calcium requirement and may be applied throughout the growing season. When used as a part of a balanced fertility program, it will correct calcium deficiencies, especially in rapidly expanding foliage and fruiting structures. It is not designed to correct soil pH.

DIRECTIONS FOR USE

Harrell's MAX Calcium should be applied in enough water to allow for thorough coverage. A jar compatibility test should be performed on new unfamiliar chemical combinations prior to mixing and application. Calcium is recommended for use on these specialty crops: palms, tropicals, roses, hydrangeas, fruits and vegetables. Apply irrigation within 18 hours after application. Apply in sufficient water to ensure thorough coverage.

Apply fertilizer in accordance with best management practices established by your State University or Cooperative Extension Service. Observe any State or Local fertilizer regulations pertaining to fertilizer content, application rates, or timing of application specific to your locale.

RECOMMENDED RATES

Turf – Greens & Tees: 2 – 4 oz. per 1,000 sq. ft.

Fairways: As a supplement to Hi-Calcium limestone or Dolomite, apply 3 – 5 gallons per acre.

Lawn & Sod: (including Bermudagrass, Floratam, Zoysia and Carpetgrass) Apply 6 – 8 oz. per 1,000 sq. ft. Repeat every 14 – 21 days as necessary.

For Correction of a Deficiency and/or For Soil Remediation: 4 – 8 oz. per 1,000 sq. ft.

Trees & Ornamentals: 1 – 2 qts per 100 gals of water. Apply at the 1 qt rate for routine Calcium maintenance. Apply at the 2 qt when severe Calcium deficiencies have been documented through proper fertility sampling.

STORAGE AND CONTAINER DISPOSAL

Store above 32°F. Store this product in a dry place, in original container only. Keep lid tightly closed. Keep away from open flame or intense heat. Triple rinse container and offer for recycling or dispose of in accordance with federal, state and local authorities.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal laws and that they conform to the label description. Any non-conformance must be reported in writing to Seller within Thirty(30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery. The seller's liability under this warranty is in lieu of all other warranties, expressed or implied, including warranties of merchantability and fitness for a particular purpose. There are no warranties which extend beyond this statement.
