

# RootMAX Pellets

## ACTIVE INGREDIENTS:

Polymeric Polyoxyalkylenes, Polyalkane

Alkyl Ethoxylates.....98.0%

## INERT INGREDIENTS:

Seaweed Extract .....2.0%

NONPLANT FOOD INGREDIENT F352

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

## Non-ionic Wetting Agent Pellet

FOR PROFESSIONAL USE ONLY

## DIRECTIONS FOR USE

- Apply with a pellet applicator when hand watering and syringing.
- Pellets typically dissolve within one hour at water pressures of 90 to 120 PSI. The rate at which a pellet dissolves is determined by water quality, temperature, pressure, and flow rates.

- Soak hard-to-wet areas, annual plantings, landscaping plantings, quickly drying mounds, newly sodded areas, and highly compacted areas.

Golf/Turf: Use every time hand watering and/or syringing is required.

General Turf/Landscape Plants: Use every time when hand watering throughout the growing season.

Store in a Cool Dry Place

**Net Weight 8 ounces (226.8 g)**
