Hydro-Cure

Hydro-Cure is a soil surfactant treatment formulated to relieve existing water related problems such as localized dry spots. Hydro-Cure is easy to use and will not harm turf and ornamentals when used in accordance with product directions. When used as directed, Hydro-Cure can be applied at anytime of the year when water repellency and/or localized dry spots impact the appearance of turfgrass and ornamentals.

DIRECTIONS FOR USE

Soil surfactant for use on turfgrass and ornamentals. Hydro-Cure is intended for use as a single component in a spray application. A jar compatibility test should be performed on unknown combinations prior to mixing and application.
